

EducationUSA-Yocket Graduate Virtual Fair 2018

The Graduate Virtual Fair is organized to complement the international recruitment efforts of U.S. higher education institutions. The fair is a convenient and cost effective medium of interacting with qualified and engaged prospective graduate students across India. Last year, more than 2700 prospective graduate students participated in the fair.

This is a virtual or online fair, which will give U.S. university representatives the opportunity to engage with prospective graduate students through one-on-one chats, group chats. Each university is allowed to have 10 representatives simultaneously interacting with students at their university's virtual booth. Universities will also have the opportunity to share promotional material and informational flyers with students. As this is a virtual fair, there are no international travel costs involved. All you need is a computer with a high-speed internet connection to participate in the fair.

Event Dates – October 6 and 7, 2018

Time – 4:30 pm – 11:00 pm (Indian Standard Time / UTC Offset - UTC +5:30)

Participation Fee per University (Up to 10 reps) – USD 900

Last date to Register – September 24, 2018

Register here – <https://bit.ly/EdUSA-Yocket-GVF18>

Please write to indiafairs@educationusa.org or info@usief.org.in for any questions related to participation and registration.

About the Organizers - *EducationUSA India, through its 7 centers in India, provides accurate, current and comprehensive information and guidance on U.S. university application process. Our centers and events are a convergence point for students using our advising services through all essential stages of planning their U.S. higher education journey. Yocket is the largest regional online community of over 200,000 registered Indian students who use this online platform to discuss applications and explore right-fit universities. Through EducationUSA and Yocket's networks, we hope to reach out to students in over 500 cities in India.*
