PROJECT PROPOSAL

To which category of grant are you applying? *

Select “Teaching/Research”, from the list. You can opt only one.

Project Title

The project title should succinctly describe the focus of the award activity (for example, “Geographic variation in pollination dynamics: Instances from native forests of California and the Western Ghats of India” or “Aerosol formation due to biogenic emissions and its impact on climate and air quality”).

Project Statement

Brief Summary of Project Statement

In 3-5 sentences, provide a summary of the Fulbright project that easily allows non-specialists to appreciate the significance of the project or any potential contributions to the field. (700-character limit, use Roman characters only).

The project statement is the most vital component of the Fulbright application. Scholars with the most compelling, theoretically sound, well-written, feasible proposals are generally recommended for awards. Sometimes those with outstanding professional achievements assume that a brief, general project statement will be sufficient. It is not. To ensure a competitive application, your proposed project, as well as the strategy for completing it, should be thoroughly explained in three to five pages.

United States-India Educational Foundation

www.usief.org.in

Upload a detailed project statement of not more than five single-spaced pages (3,500 words) on this page of your online application form.

FORMAT

- **Do not exceed the page limit of the proposal.**
- Begin the project statement with your name, country (India) and the project title at the top of page one. At the top of each subsequent page, type your name and country (India).
- Organize your proposal in order of the following points, which appear in bold print, and use them as headings for sections of text in your statement.

GUIDANCE FOR A RESEARCH PROJECT

Background: Introduce the research topic. Place the project in academic or professional context by referring to major works by others on the subject.

Objectives: Clearly define the aims of the project.

Methodology: Describe the project. Explain the approach, methods and plan you will use (for example, interviews, library or archival research, or laboratory experiments). Indicate whether the proposed research is quantitative or qualitative.

Significance: Explain the importance of the project for the field, India and the U.S., and your own professional development. Indicate what effect you expect the opportunity to have on your teaching or professional work in India. (For example: new approaches to curriculum planning, student advising or pedagogy; expanding knowledge in the field through collaboration with U.S. colleagues). Describe briefly the expected impact of your participation on your home institution, community or professional field.

Evaluation and Dissemination: Describe plans for assessment and distribution of research results in your home country and elsewhere.

Justification for Residence in the United States for the Proposed Project: Indicate why it is necessary to conduct the research onsite in the United States.

Research Plan and Timeline: Provide a monthly/quarterly timeline of the execution of your Fulbright-Nehru project in the U.S.

English Proficiency: Describe your schooling in English, use of English and competence level in speaking, reading and writing.

Other: If applicable, indicate the quantity, format and transportation requirements for any botanical, zoological or mineral samples that you will need to bring to the United States for analysis.

STYLE RECOMMENDATIONS

- Express what you can bring to the program clearly and succinctly. Think of the basic questions that need to be answered: Why should I apply for a Fulbright award to come to the United States? If selected, what will I do and how will I do it? What preparations have I made to complete the project? What can I contribute to the Fulbright Program? What will the results of my participation be? Include only the most pertinent information in forming your responses so as not to exceed the page restrictions. At the same time, you should avoid writing a proposal so brief that it will be difficult for the reviewer to understand the project.
- Emphasize key points in the first paragraph of the proposal. Reviewers examine many Fulbright applications, and having to search for the main points of the proposed activity is not helpful. You should grab the reviewer's attention quickly and state clearly what you want to do, why it is important and how you will do it. You should use the rest of the proposal to support your statements in the opening paragraphs.
- Pay attention to style in your proposal. You may want to use the first person, but you should avoid flooding your proposal with "I's" or referring to yourself in the third person.
- Keep your proposal simple and straightforward so that an educated reader from another discipline can understand it.

Bibliography: You will have to provide a list of one to three pages of references relevant to the proposed research.

United States-India Educational Foundation

www.usief.org.in

Course Syllabi

Teaching/Research proposals provide up to 10 pages of sample syllabi for courses you either propose to teach or have taught. It is strongly recommended that you upload in PDF format.

GUIDANCE FOR A TEACHING PROPOSAL

Teaching Experience: Describe the range of courses you have taught, including the teaching methods used. Indicate your involvement, if any, in curriculum planning, thesis guidance and administrative responsibilities. Explain how your experience will be relevant to your proposed teaching in the United States.

Proposed Teaching: Explain what you propose to teach in the United States.

English Proficiency: Describe your schooling in English, use of English and level of competence in lecturing and speaking, reading and writing.

Expected Outcomes: Indicate what effect you expect the opportunity to have on your teaching or professional work in your home country (for example, innovative approaches to curriculum planning, student advising or pedagogy; expanding knowledge in the field through collaboration with U.S. colleagues).

Describe briefly the expected impact of your participation on your home institution, community or professional field.

Academic Discipline

Major Academic Discipline: Select the most appropriate discipline from the drop-down menu.

Primary Specialization: Select most appropriate discipline that is closest to your Fulbright-Nehru project.

Briefly describe the area of the field in which you plan to specialize.

Intended Grant Period

Duration: Four months.

RECOMMENDATIONS

Click the **"Add Recommenders"** button in the left corner of the application form to register your referees. You will need to complete the reference registration form to allow your referee(s) to submit your references online. It is imperative that you accurately enter the information as your referee will receive an automated email informing

United States-India Educational Foundation

www.usief.org.in

him/her of the online reference process. Your referees will receive an email from Fulbright@iie.org directly, asking them to register for the website and complete their recommendation.

This process will happen as soon as you provide their contact information and click on “Invite Recommenders.” **You will receive an email notification after the referee submits the online recommendation letter. References must be submitted no later than August 31, 2021.**

- Do not request more than three referees to submit letters of reference.
- Please provide your referees with a copy of your project statement.
- References should be from people qualified to evaluate your professional work, the abilities you bring to the proposed project, your ability to adapt to another country and culture, and the merits of the project itself.
- References can come from your home institution, but at least one of the references should be from a colleague in your field outside your home institution.
- Choose your referees carefully and contact them early. The letters of recommendation need to accompany the application as it could otherwise be weakened by an insufficient number of references.
- Do not ask someone for a letter of reference unless the person is well acquainted with your qualifications. A pro forma letter from a well-known scholar, a contact abroad or a prominent government official will carry less weight than a realistic assessment of your abilities from someone who knows you and your work well.
- References must be written in or translated into English.
- It is your responsibility to ensure that reference reports are submitted by the deadline.
- Candid, frank reference reports or letters of reference help reviewers place your research proposal within your home institution’s objectives and plans for growth. References also provide evidence of your reputation within your discipline.
- **Request your referees to specify their name and designation in the letter of reference. Reference letters without referee name will not be considered.**

Note: Letters of recommendation and language evaluations may be submitted before or after you submit the application. However, ensure that your referees complete their letters of reference prior to the application deadline.

SIGNATURE

To electronically sign the application form, please type in your complete legal name as per your passport and click **confirm**.

REVIEW

Before you submit your application electronically, your application will be reviewed for completeness. If there is missing data, you will be prompted to correct.

Before you submit your online application, please review it carefully with reference to the **FNVC Checklist** and ensure that your application is complete in all respect. *Do not upload the checklist to your online application.*

FNVC annexure and Letter of support from the Home Institution is an important component of the application, without these documents your application will be considered incomplete.

Important: Once you submit the application, you will receive an automated response from Fulbright@iie.org congratulating you for successful submission of your online application for the Fulbright Visiting Scholar Program. Note that the United States-Educational Foundation in India (USIEF) - Fulbright Commission in India - will **NOT** send any additional confirmation e-mail to you.

APPLICATION DEADLINE: AUGUST 31, 2021, 23:59:59 hrs (IST)
